## SACO'S SUMMER CAPITAL GAINS

**SERVICED** apartment provider **SACO** is set to offer the most comprehensive network of apartments in London following the launch of three new buildings in the capital this summer. The three openings will be the first operated by **SACO** themselves and, together with their partner network, will enable the company to offer over 1,500 apartments in over 85 locations around the city. The new developments are at East India Quay in Canary Wharf – which opened in May – plus Covent Garden and High Holborn, which open later this summer.
